About Us

We supply high quality products for total supply solutions for manufacturing plants

GBK is a New Zealand based business and has been operating and servicing the Pacific region for over 40 years.

Our staff have considerable knowledge of supplying high quality products for complete supply solutions for manufacturing and logistic plants.

We have an excellent consultation process to ensure the right products are supplied to customers the first time, every time.

We provide product solutions that work, enabling our end-users to operate efficiently and with confidence.

Our team regularly visit our customers to gain a better understanding of their needs and the unique challenges in the Pacific to deliver innovative solutions. Through our comprehensive range of manufacturing, warehousing products, and our logistic services, GBK are able to offer a one-stop supply solution.

Our Mission

Having a passion for manufacturing, our team at GBK are committed to providing the Pacific Islands with high quality products and services, so that customers can enjoy fresh, crisp finished products. With over 40 years combined technical experience in manufacturing areas, we ensure high quality service and expertise.

GBK is dedicated to the Pacific as more than 90% of GBK's business comes from that region. This means that GBK has a keen interest in growing business in the Pacific. Some customers have been with the company since it was formed.

Through its network of suppliers GBK has access to the latest in R&D and technology. We help our customers understand developments in the industry and how to take advantage of them.
